This cylinder features transparent, nontoxic, noncontaminating, and biologically inert material with excellent chemical resistance. Meets ASTM E1272 Class B accuracy requirements, ISO Standard 6706, and suitable for food and beverage use (PMP resin meets requirements of CFR 21, Part 177.1520). Calibrated "To Contain/To Deliver" at 20°C (68°F). Shatterproof and thermally resistant to 135°C (275°F). Absence of meniscus for easy-to-read levels on front-to-back raised graduations.

Specifikacije

Certificiranja:	Class B
Kapacitet:	250 mL
Materijal tijela mjerača:	Polymethylpentene
Mjerna metoda:	To Deliver/To Contain
Volumen/ veličina paketa:	1 each
Vrsta:	Jednometrički
